

Notice for iPad Users

The online Drumcondra tests on DOTS are compatible with a variety of devices, including iPads. To ensure that students' iPads function optimally during the test session, please complete the following steps *prior* to testing.

- 1 On the home screen of the device, open the “**Settings**” application.
- 2 Scroll down and select the “**Display & Brightness**” section.
- 3 Scroll down and select the “**Auto-Lock**” feature.
- 4 Select “**Never**”.
- 5 **Repeat this process** on all student iPads to ensure that the device does not enter rest mode at any point during testing, *including during designated breaks*.

Please contact us with any questions.
